PROFILE

I'm a passionate and detail-oriented Front-End Web Developer, excited to start my professional journey. I enjoy building responsive websites and bringing designs to life with clean, efficient code. I'm skilled in modern web technologies and always eager to learn and grow. My goal is to create user friendly experiences and stay updated with the latest trends in web development

PROFESSIONAL EXPERIENCE

FRONTEND DEVELOPER TRAINING >>

HEXABIRD PVT. LTD. (MAY 2023 – JAN 2024)

Completed hands-on training in Frontend Development with real-world projects.

Worked on building responsive, SEO friendly, and cross-browser compatible websites.

Collaborated with senior developers to understand industry workflows, Git/GitHub version control, and REST API integration.

FRONTEND DEVELOPER PROFESSIONAL EXPERIENCE >>

HEXABIRD PVT. LTD. (FEB 2024 - APR 2025)

Developed and maintained responsive websites and web applications using React.js, TypeScript.

Integrated REST APIs and worked on state management with Redux.

Actively contributed to bug fixing, code reviews, and version control (Git/GitHub).

PROJECTS

School Website :

Responsive school website built with Next.js and Tailwind CSS, featuring smooth navigation and dynamic content sections.

Project Url :- <https://school-website-three-snowy.vercel.app/> .

Cybersecurity landing page:

Cybersecurity landing page built with React and Tailwind CSS, showcasing modern UI, responsive design, and scroll-based animations.

Project Url :- <https://protecturo-mj.netlify.app/>.

Uben AI – Modern Business Website:

Designed and built a modern, multi-page website for an AI-focused brand. Implemented smooth page transitions, responsive layouts, and engaging animations to highlight services

Project Url :- <https://uben-ai.vercel.app/>

Nova Exordium – Landing Page & Dashboard:

Built a sci-fi themed web app featuring a dynamic landing page and a custom designed dashboard. Focused on component-based architecture, smooth navigation, and responsive design across both marketing and user panel views.

Project Url :- <https://nova-exordium.vercel.app/>
