

MAMTA SANGWAN

Front-End Developer

Hisar, Haryana, India | +91-82953-80580 | mamtasangwan851@gmail.com | linkedin.com/in/mamta-sangwan-96b838355

PROFESSIONAL SUMMARY

Results-driven Front-End Developer with 1+ year of professional experience designing and building responsive, SEO-friendly, and cross-browser compatible web applications using React.js, Next.js, TypeScript, and Redux. Delivered 4+ production-grade websites and applications, integrating REST APIs and implementing scalable, component-based architecture that improved code maintainability and UI performance. Proficient in modern front-end tooling including Tailwind CSS, Bootstrap, Firebase, and Git/GitHub version control. Strong track record of cross-functional collaboration, code review participation, and on-time delivery in fast-paced Agile environments. Seeking to leverage front-end development expertise and a problem-solving mindset to drive impactful UI/UX outcomes in a growth-oriented MNC.

Core Competencies: Responsive Web Design, Cross-Browser Compatibility, SEO Optimization, Component-Based Architecture, State Management, UI/UX Implementation, Performance Optimization, Code Review, Debugging

Methodologies & Soft Skills: Agile/Scrum, Version Control, Cross-Functional Collaboration, Problem Solving, Time Management, Communication

PROFESSIONAL EXPERIENCE

Front-End Developer | Hexabird Pvt. Ltd.

Feb 2024 – Apr 2025

- Developed and maintained 4+ responsive, production-grade websites and web applications using React.js and TypeScript, ensuring consistent performance across devices and browsers.
- Integrated REST APIs and implemented centralized state management using Redux, reducing inconsistent UI states and improving data flow reliability across applications.
- Designed and built a modern, multi-page website for an AI-focused brand, implementing smooth page transitions, responsive layouts, and engaging animations that improved user engagement and visual appeal.
- Built a sci-fi themed web application featuring a dynamic landing page and a custom-designed dashboard, applying component-based architecture to improve code reusability and reduce development time.
- Developed a cybersecurity landing page using React and Tailwind CSS, implementing scroll-based animations and a fully responsive layout for an optimized cross-device user experience.
- Collaborated with a cross-functional team of developers and designers in an Agile workflow; actively participated in bug fixing, code reviews, and Git/GitHub version control to maintain high code quality.

Front-End Developer Trainee | Hexabird Pvt. Ltd.

May 2023 – Jan 2024

- Completed intensive hands-on training in front-end development, contributing to real-world client projects under senior developer mentorship.
- Built responsive, SEO-friendly, and cross-browser compatible websites, strengthening core skills in HTML5, CSS3, and JavaScript (ES6+).
- Gained practical exposure to industry-standard workflows, including Git/GitHub version control, Agile collaboration, and REST API integration.

KEY PROJECTS

- Uben AI - Modern Business Website** uben-ai.vercel.app: Designed and built a modern, multi-page website for an AI-focused brand with smooth page transitions, responsive layouts, and animations to highlight services.
- Nova Exordium - Landing Page & Dashboard** nova-exordium.vercel.app: Built a sci-fi themed web app with a dynamic landing page and a custom-designed dashboard, focused on component-based architecture and responsive design.
- Cybersecurity Landing Page** protecturo-mj.netlify.app: Built with React and Tailwind CSS, showcasing a modern UI, responsive design, and scroll-based animations.
- School Website** school-website-three-snowy.vercel.app: Responsive school website built with Next.js and Tailwind CSS, featuring smooth navigation and dynamic content sections.
